Juneau, AK 99801

Child Care Food Program

Benefits to Providers

- Reduces the cost of feeding children
- Nutrition training and support
- Healthier, happier children as a result of nutritious meals
- Less meal disturbances since all children are offered the same foods

Benefits to Parents

- Help to control the cost of child care
- No need to prepare and transport foods to child care
- Security in knowing nutritious foods are being served
- Knowing their children are learning healthy eating habits

Feeding children in family child care homes is a big responsibility and expense. Since children establish eating habits at an early age, you play a key role in developing healthy and positive eating habits for the children in your care. As a licensed provider you can be reimbursed for a major portion of your food cost by participating in the AEYC-SEA Child Care Food Program. The program reimburses up to two meals and one snack per day for each child in your care. Currently the reimbursement rates are as follows:

	<u>Tier 1</u>	<u>Tier 2</u>
Breakfast	\$1.89	\$.67
Lunch/Supper	\$3.59	\$2.16
Snack	\$1.07	\$.29
